Mr. Andrew Salmaso, V.P.
Janod Contractors
P.O. Box 2487
Champlain, NY 12919

Dear Andrew:

As this portion of the project at Rock Creek Crossing (RCC) is winding down, we wanted to take a few minutes to extend our compliments to you and Janod on an outstanding performance at the RCC site.

The men, who have been working at the site under the very capable supervision of Norbert, and now Pierre Gionet, have performed admirably. They are hard working, competent and knowledgeable of their work. Each one of them is pleasant and helpful and they all get along quite well together. Such chemistry, I think, doesn't happen by chance. Emily from the RCC Board of Directors has mentioned to me several times how impressed she was of the overall demeanor of the men working at the site and how pleasant and considerate they were.

Please extend our thanks for a job very well done to Norbert, Pierre, Brian, Larry Fornier, Dave Wahl, Dave Pujos-Michel, James, Brody, Nikko, John and Tim (and any others that our poor memory may have omitted). We certainly look forward to working with Janod again in the future.

Very truly yours,
GEOSCIENCE SERVICES

James G. McWhorter, P.G.
Senior Geoscientist
