

# midAtlantic group

*a division of Oldcastle Materials*

Dec 9, 2009

This letter is in reference to work that Janod Contractors performed at our Millard quarry for rock stabilization and bolting. This company provided us the best of service while maintaining safety at all times. The team was very detailed in approaches to all situations and communications were ongoing. I would recommend their services to all in our industry as "experts" in what they do.
